5 August 1965--B

CPYRGHT

(Text) Vice chief of the mission of the Malayan National Liberation League in Indonesia, Eu Chooi Yip, in an interview with ANTARA after his return from Helsinki, where the world peace congress was held, stated that the congress had achieved positive results. They have been achieved thanks to progressive and revolutionary delegations who carried out a sharp and uncompromising struggle against the reactionary and revisionist elements, he declared, adding that the Indonesian delegation played a prominent part in this struggle.

This leader also described the despicable intrigues and manipulations as well as the flagrant breaches of democratic principles resorted to by the reactionary and revisionist elements in their attempt to make the work of the congress serve the U.S. imperialist policy of war and aggression.

A CIA agent who posed as a representative of some American peace organization was smuggled into the congress. He soon exposed himself because he had the audacity to peddle the idea of sending a "peace mission" of the congress to persuade the Vietnamese people to agree to "peaceful negotiation" with the U.S. aggressors.

Honest people who are genuinely anti-imperialist will sooner or later see through the dirty tricks of those who pretend to fight for world peace and against imperialism but in fact work hand in glove with U.S. imperialism to undermine and destroy the world peace movement so that they can realize their dream of world domination. Latest developments in progressive international conferences have shown that their conspiracy has met with stiffer and stiffer opposition and must inevitably end in complete failure.
